
Title: Rite of the Sigil

Author: Unknown

Book 2 in the series:
The Seven Rites of
Lichdom.

The prime ingredient for
this Rite is the heart of
an Earth Elemental.

Ensure that this creature
is of correct power - it
must have a might no
less than the pre-Liches
magnitude of years.

As thou doubtless are
aware, the material
essence of a Rock Spirit
can only be forged over
a Lava Lizard's heat.

Before the forging can
commence however, the
brand there to be made
must be given form.

The design is of the
utmost import, and it
must be of personal
significance.

The Rite of the Sigil
begins as the forging
starts, and ends as the
brand, still blazing from
the Lava Lizard's fire, is
applied to the left side
of thy bare chest, above
the heart.
